224.Minutes of the meeting held on 15th January 2018

Resolved - The minutes of the meeting held on 15/1/18 were accepted and signed by Cllr Harold as a true record.

225.Matters Arising (Not otherwise on the Agenda)

- (a) Grit Bins & White Lines on Long Lane - The clerk has yet to progress this item.
- (b) ILCA Training - The clerk has deferred signing up for this course until after this year's internal audit has been completed, as she will have very limited time between then and now.
- (c) Gate Plate at Southwood Park - Wicksteed have promised to get back to the clerk before the end of this week regarding this matter.

Cllr Harold Closed the Meeting and invited the residents to address the council.

Anaerobic Digestion Plant - Planning Application 15/03894/STPLF

Mrs Alison Goddard raised issues regarding three conditions that that have been discharged on this planning application

- **Condition 4** - The original condition required that a liaison group was set within one month and included members from parish councils, ward councillors, statutory consultees and neighbouring residents. The applicant took 13 months to set up this group and there are no ward councillors, parish councillors or statutory consultees. In addition the meetings are to be held during the daytime which is not particularly convenient for residents.
- **Condition 15**- This condition provided for soft landscaping to be provided on the eastern, southern & western boundary no less than 5m wide. The submitted plan now has no soft landscaping on the western boundary due to the solar panel installation and the east boundary screening is totally inadequate.

Mrs Goddard asked that a full review is performed and that a new planning application is submitted, as the plans presented do not match what has been approved.

Cllr Harold re-opened the meeting

226.Planning Application 15/03894/STPLF

The council discussed the fact that conditions 4, 15 & 16 have been discharged when they have not yet been fully met. Initial feedback from the planning officer indicated that this is quite normal practice. The council are very unhappy about the way this planning application has been handled. The council requested that the clerk write to the planning officer and send copies to Stephen Hunt (Head of Planning) & Caroline Lacey (CEO) ascertain under what authority Mr Sunman acted to amend and remove the originally imposed conditions.

Woodmansey Parish Council

Cllr Julie Los also commented that originally the tree screening was imposed to provide a residential amenity, ie to protect the residents from visual impact, noise and odour. Now the condition seems to be concerned only about a public visual amenity. Protecting the public view from say Dunswell Lane or other public highway is quite different from what is required to minimise the impact on local residents.

There was a question as to whether Planning Enforcement should be notified as current plans do not match what was approved.

Cllr Harold closed the meeting.

Mrs Goddard requested that the council ask that East Riding make a site visit because plans submitted are factually incorrect.

Cllr Harold re-opened the meeting Cllr Harold

Cllr Beal proposed that we contact East Riding Council and raise the council's concerns. Cllr Shores seconded. All agreed.

Cllr Harold closed the meeting.

Cllr Harold invited PC Matthews to address the council.

PC Matthews reported that:-

- they have been having an action week in Beverley, focusing on the Swinemoor estate. Questionnaires have been distributed to various streets in the area where there have been issues. The main problem being antisocial behaviour by a group of young people. Successful Warrants have been issued.
- his activities are being changed, in the future he is going to be dealing with less crime and be more community focused, which will enable him to be more proactive.
- Molescroft still having multiple burglaries.
- Beverley Crime Watch has been set up by concerned residents.

Cllr Waddington commented on the use of quad bikes & off-road bikes being used alongside the drains. PC Matthews reported that he was aware and action is being taken.

Cllr Harold reported that the problem with needles being dumped in bus shelters in the parish seems to have been resolved.

PC Matthews is aware of cannabis growers being active in the community and asked if anyone had any information to contact him.

Cllr Harold thanked PC Matthews for attending the meeting and keeping council updated.

Cllr Harold re-opened the meeting.

227. Woodmansey Neighbourhood Development Plan

Cllr Oliver reported that progress has been slow. The group have had some advice on some technical points from East Riding Council. David Gluck is working on these for the next meeting which is to be held on 28th February.

Cllr Harold invited Cllr Mathieson to update the council with progress with the Cottingham Neighbourhood plan. Cllr Mathieson reported that Cottingham have just held their referendum and 24% of residents voted, of whom 92.5% voted positively to the statement 'Do you want East Riding of Yorkshire Council to use the Neighbourhood Plan and Design Guide for Cottingham to help it decide planning applications in the neighbourhood area?' Cllr Harold passed on her congratulations.
